

NATIONAL LINEWORKER APPRECIATION DAY

National Lineworker Appreciation Day is celebrated on April 18 this year. This is a day to express our appreciation to the men and women that work so hard for us every day. They work all hours of the day, often in dangerous conditions away from their families, going above and beyond to restore power to our members. While we appreciate our line workers every day, we commemorate every April to give them the recognition they deserve. Bayfield Electric invites our members to take a moment to thank a line worker for all the work that they do. If you use electricity, a line worker has had an impact on your life.

When the lights go out, so do they.

In 2026 we celebrate these work anniversaries of our linemen:

Troy Seeger—33 Years

Ken Koosmann—30 Years

Keith Klobucher—27 Years

Adam Waddle—19 Years

Dustin Mckay—14 Years

Keith Kavajecz—12 Years

Elliot Powers—12 Years

Blake Reijo—9 Years

Matt Tarasewicz—6 Years

Braden Stegmann—4 Years

Stay Clear!

- Assume all power lines are ENERGIZED and dangerous. Even lines that are de-energized could become energized at any tie.
- Never touch a downed power line! And never touch a person or object that is touching a power line.
- If someone is injured as a result of contact with electric current, do not try to assist him or her. You could be injured or killed. Call 911.
- If a power line falls across your vehicle while you are in it, stay inside until help arrives.
- Call 911 immediately to report a downed power line. Then call your electric cooperative.

ENERGY EFFICIENCY TIP OF THE MONTH

As we prepare for the seasonal shift, remember to set your ceiling fan rotation accordingly. In winter months (or whenever your home heating system is running), fan blades should rotate clockwise, which produces an updraft that pushes warm air down. In summer months (or whenever your home cooling system is running), blades should rotate counterclockwise, which produces a downdraft or windchill effect that makes you feel cooler. When used correctly, ceiling fans can boost comfort and allow you to adjust the thermostat a few degrees for energy savings.
